1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-42 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are indefinite because they are unduly multiplied. See appropriate sections of the MPEP including 2173.05(n). The applicant is required to present a reasonable number of claims for examination. In this case no more than 5 independent claims and 30 total claims is considered reasonable. Claim 21 is indefinite because it does not read properly when combined with every single limitation in claim 1 to which it refers. It is noted that claim 21 is an independent claim in spite of the form in which it is drafted.

3. Applicant is advised as to the disposition of the claims in the first office action. In that action, claims 1-3, 6, 8-9, 21-24, 26 and 27 were rejected on the merits. Claims 4-5, 7, 10-20 and 25 were objected to as dependent on rejected claims, therefore considered allowable if re-written in dependent form to include all of the limitations of the base and any intervening claims.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacob K. Ackun Jr. whose telephone number is (571)272-4418. The examiner can normally be reached on Monday through Friday 8.30AM-5.00PM.
